## CUSTOM ASSAULT GEAR®

Assault Gear is a full-custom gear line available with an array of options and mobility features. When you know the materials that you need, what options you want, and where you want them placed, Assault Gear allows you to order the exact turnout you want to your specification at a competitive price.

### Coat Features

- Coats come standard in 28", 32", or 35" lengths (custom lengths available)
- Patent pending removable Drag Rescue Device allows it to be removed for cleaning reducing the possibility for damage
- Variety of pocket options
- Can be ordered with a DexFlex™ back and/or elbow for increased mobility
- 2 snaps to secure the liner to the hem of the outer shell
- 3M Scotchlite™ Reflective Material or Reflexite® Brilliance® in your choice of color and configuration

### Pant Features

- Available in Low or Regular Rise
- Option of no rear panel, 3" or 6" rear panel
- Can be ordered with a DexFlex™ knee for increased mobility
- Many suspender options
- 3M Scotchlite™ Reflective Material or Reflexite® Brilliance® in your choice of color and configuration

## CUSTOM FX™ GEAR

Our most ergonomic design, providing superior mobility – FX™ Gear is available with all the fabric combinations, closures and trim to meet your needs. We have an array of different options including pocket reinforcements, lettering, and other choices to personalize your gear. This gear is made with all the standard features listed below, but allows you to add all of the options that are available in our Custom Assault™ Gear.

### Coat Features

- Coats come standard in 28", 32", or 35" lengths (custom lengths available)
- Patent pending seamless collar that allows the wearer to have the collar upright as shown or folded down
- Patent pending removable Drag Rescue Device allows it to be removed for cleaning reducing the possibility for damage
- Variety of pocket options
- DexFlex™ Back and Elbow help the garment fit and move with the wearer
- 2 snaps to secure the liner to the hem of the outer shell
- 3M Scotchlite™ Reflective Material or Reflexite® Brilliance® in your choice of color and configuration

### Pant Features

- New athletic cut pattern, mid rise pant
- Option of no rear panel, 3" or 6" rear panel
- DexFlex™ Knee allows the leg to bend with less resistance
- Ergonomic Leg that has an angled design to fit in a forward firefighting position
- H-back, padded suspenders with parachute pull
- Comfort inseam in crotch reduces wear and stress on the liner
- 3M Scotchlite™ Reflective Material or Reflexite® Brilliance® in your choice of color and configuration

# FIRE-DEX® GLOVES

In 1983 Fire-Dex got its start in the protective clothing market marking gloves. The Honor™ and Courage™ Gloves were created as a tribute to firefighters who put their lives on the line. We are committed to quality and make it a priority in all of our products! An array of leathers, thermal liners and moisture barriers, ensure the highest levels of protection and comfort – compliant to NFPA standard 1971, current edition.

## COURAGE™

The Fire-Dex Courage™ Glove features a best attribute is its ability to naturally repel water. Partnered with an elk hide back for flexibility, the Fire-Dex Courage Glove provides protection, while keeping the comfort level high – and dry. Available with gauntlet or knitwrist.

**G01GEMG** Standard Fit CROSSTECH® Glove Inserts **\$104.99**

## HONOR™

The Fire-Dex Honor™ Glove features a durable cow hide palm and a flexible elk skin back. Compliant to NFPA standard 1971, the Honor Glove provides optimum security and comfort. Available with gauntlet or knitwrist.

# Fire Dex FOOTWEAR

Protection for the Heat of the Battle®

## LEATHER BOOTS

Fire-Dex leather boots have been engineered to provide all of the protection of an NFPA leather fire boot but with all the comforts of an athletic shoe.

### Exterior

- Pull-on loops are reinforced with extra layer of leather and Kevlar® thread to guarantee them for the life of the boot under normal wearing conditions
- Quick to don and doff with gloved hand
- 2.2 mm silicone tanned FR Full grain, heavy weight leather
- 3M Silver Industrial Wash Flame resistant fabric reflective trim (8935) enhances visibility
- 3D vulcanized rubber heel guard promotes longevity, creates and maintains shape of ergonomically designed heel cup
- 3D vulcanized protective rubber toe guard provides additional grip where you need it and promotes longevity of toe cap

### Interior

- Crosstech® Footwear Fabric provides durable, breathable protection
- Lined with 400g of Polyfelt, providing lightweight insulation
- 200g of Kevlar® by DuPont provides the most innovative thermal and cut resistant barrier
- Composite protective toe cap complies with NFPA/CSA/ANSI

### Sole

- Rugged diamond plated ladder shank area increases traction when climbing ladders.
- Molded Cement Outsole with Articulating Louvers provides additional traction to the medial side of the foot
- Red no skid pattern helps reduce slippage in wet conditions and releases water from being trapped beneath the outsole

**FDXL100** Leather Boot **\$307.99**

### Insole

- Multi density footbed
- Lenzi® puncture resistant fabric adds protection & enables more flexibility in the boot
- Impact-absorbing elastomer performance gel at heel and ball of the foot
- Antibacterial/anti-odor, moisture-wicking sock liner with Nano printing technology promotes circulation to the foot and legs
- Energy Return Polyurethane that cushions and cradles the foot also reduces foot, leg & back fatigue & provides proper body alignment
- EVA memory foam over time will take the shape of the foot creating a cradle effect for perfect fit

## RUBBER BOOTS

Fire-Dex rubber boots are high quality and value priced. This boot's features are more than the standards. Everything in its design revolves around improving comfort, durability, and safety.

### Exterior

- Abrasion-resistant Nitrile and rubber exterior with silicone coating
- Rubber shin guard
- Integrated pull-on loops
- Reflective trim around base
- Reinforced heel
- External, reflective size tag

### Interior

- Moisture-wicking wool liner insulates against heat and cold
- Protective Package made of corrosion-resistant stainless steel includes:
  - Puncture resistant mid sole that covers the entire outside circumference of the foot
  - Steel shank for comfort and stability when standing on ladder shanks
- Roomy steel toe

### Insole

- Shoe fit design – fits more like a leather fire boot than any other type of open shaft boots
- Contoured heel cup reduces heel slip
- Sock liner provides comfort to the foot, reducing foot, leg and back fatigue
- Unique, custom-made footbed

### Sole

- Deep lug outsole with articulating louvers
- Diamond plate-textured midsole
- Tread designed to push water outward
- Sole attached with internal foxing, creating a clean-looking, more flexible, and securely attached sole
- Black, one-piece lug sole with a wide platform heel for optimal stability

**FDXR100** Rubber Boot **\$159.99**

# Fire Dex HELMETS & HOODS

Protection for the Heat of the Battle®

Fire-Dex helmets feature fiberglass compression molded shells with superior flame and heat resistance, a thermal impact cap, ratchet adjustment, and an adjustable headband to fit all SCBA's. SEI Certified to meet or exceed NFPA 1971, 2007 edition.
